# Internet access for your tenants and all your business needs

## TECHNICAL SPECIFICATIONS

## FEATURES

Virtual or on site surveys to provide a perfect coverage of your network.

Our networks include integrated security for tenants, reducing potential hacking, phishing and virus attacks.

24/7/365 bilingual in-house helpdesk.

24/7/365 proactive remote equipment monitoring.

Own, lease or choose Wi-Fi as a Service with \$0 upfront investment and a simple monthly fee.

Provide free basic Internet access to your tenants or charge for faster access. Choose your own Internet provider. Offer different billing options for a better ROI.

Meet your professional Wi-Fi needs to support wireless VoIP, cameras, healthcare tablets, fall detection and location/wander management, etc.

Options: In-room tenant Casting/Chromecast support & Web filtering.
