User-friendly & affordable

Health recommendations have evolved and we are here to help you adapt.

Our Paperless Guest Room Directory service will digitize your existing guest directory into a virtual book with flippable pages, and host it in the cloud. We will send you customized NFC enabled stickers sporting a custom QR code and simple instructions for your guests to follow. Opt for our service and remove your directory from the room, making it easier to meet the latest health recommendations.

Test our solution by scanning the QR code above

The printed custom URL also allows guests to access the directory using their laptop.

Using our Paperless Guest Directory service is simple and convenient

Using their own phones or tablets, your guests can scan the QR code with their device's camera to automatically access your directory. They can also access the directory by typing the URL manually in their internet browser.

Our solution is NFC enabled to make things even easier! Thanks to the built-in NFC chip, guests simply need to tap the sticker with their NFC-compatible device to instantly bring up your guest directory right in the palm of their hands.
